RE: CLRSD Proposed sewer project

We cannot thank you enough for your attendance at Leaf Valley Town Hall on Saturday, July 19th, 2008. Your interest and input are invaluable to us.

There was a lot of “spin” used by CLRSD regarding the actual cost to the landowner. But the fact remains, with the loss of federal and state funding, the onus to pay for this project has fallen on the individual landowner. We simply cannot hold up under the 60%(+-) increase in proposed project costs. One of my major concerns is we cannot get any assurance from CLRSD as to a cap to the costs or when exactly they will deem the costs “economically unfeasible” to us landowners. They seem to be proceeding with an “open checkbook” attitude. This is simply wrong.

The citizens of Miliona Township that are opposing this project have hired an attorney and plan to proceed with opting out of the project. Any help you can provide us would be crucial to the success of this endeavor.

AGAIN, THANK YOU FOR YOUR CONCERN . WE APPRECIATE IT!!
